

Exercise 2

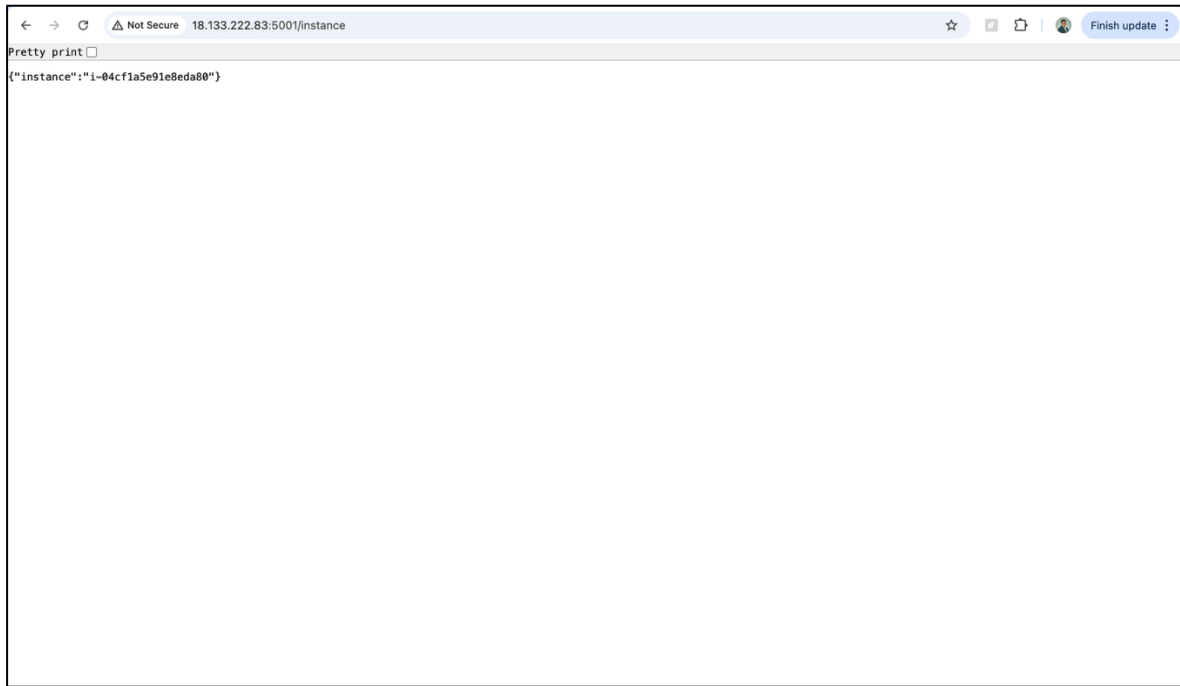

1) Screenshot of the running instance

Screenshot of AWS's instances with the list of instances, with the instance in "Running" state, the public IP and username at the top right:

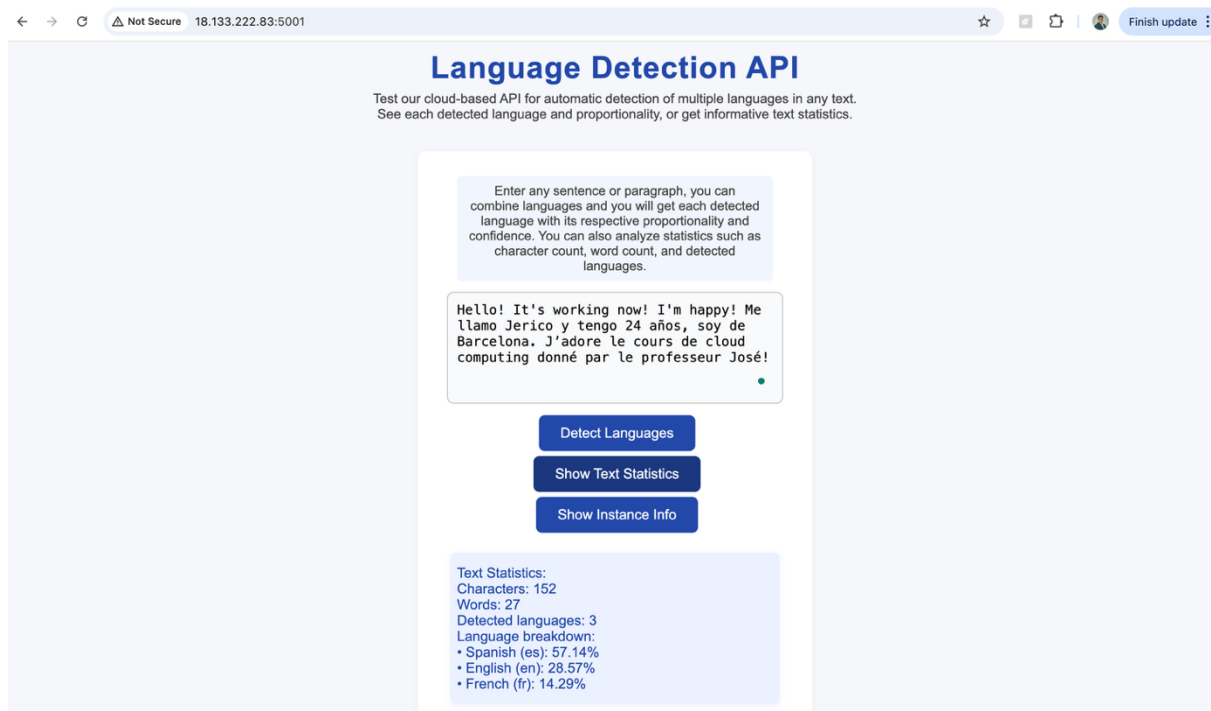

The screenshot shows the AWS Management Console interface. At the top, there's a navigation bar with the account ID '7761-2704-2422' and the region 'Europe (London)'. Below the navigation bar, the 'Instances (1/1)' page is displayed. A table lists the instances, with one instance named 'FlaskServer' having ID 'i-04cf1a5e91e8eda80' in a 'Running' state. The table includes columns for Name, Instance ID, Instance state, Instance type, Status check, Alarm status, Availability Zone, and Public IPv4 DNS. Below the table, the details for the 'i-04cf1a5e91e8eda80 (FlaskServer)' instance are shown. The 'Instance summary' section includes the Instance ID, IPv6 address, Hostname type, and Answer private resource DNS name. The 'Public IPv4 address' section shows the IP '18.133.222.83'. The 'Instance state' section shows 'Running'. The 'Private IP DNS name (IPv4 only)' section shows 'ip-172-31-26-148.eu-west-2.compute.internal'. The 'Instance type' section shows 't3.micro'. The 'Private IPv4 addresses' section shows '172.31.26.148'. The 'Public DNS' section shows 'ec2-18-133-222-83.eu-west-2.compute.amazonaws.com'. The 'Elastic IP addresses' section is empty.

2) Screenshot of the request to the /instance endpoint

The screenshot shows a web browser window with the URL '18.133.222.83:5001'. The page title is 'Language Detection API'. The main content area has a light blue background and contains a text input field with the text 'Hello! It's working now! I'm happy! Me llamo Jerico y tengo 24 años, soy de Barcelona. J'adore le cours de cloud computing donné par le professeur José!'. Below the input field are three buttons: 'Detect Languages', 'Show Text Statistics', and 'Show Instance Info'. At the bottom of the page, there is a footer that says 'Cloud Instance: i-04cf1a5e91e8eda80'.

3) Extra: Screenshot of the API working with the Text Statistics endpoint

It shows the number of characters, words, detected languages and language breakdown with its respective proportion.
